EXPERIENCE

Intuit — *Design Technologist*   Apr 2019 - Present

- Design & build a tool for our teams to create complex, stateful prototypes using production components without knowing code
- Guide motion strategy & build in-product animations to establish a more delightful user experience
- Work with cross functional partners to turn future facing ideas into tangible experiments to influence business direction

Workday — *Product Design Intern*   Jun 2018 - Sep 2018

- Redesign the conclusion interface, which supports 50k+ use cases
- Collaborate with development to drive 6 mobile (iOS & Android) animations to production
- Redline spec sheets, evaluate technical constraints, & set guidelines for design system components

Nanome — *Contract UX Designer*   Jan 2018 - Jun 2018

- Pilot the end-to-end flow of a collaboration platform for scientists using Nanome, a virtual reality tool for molecular research
- Align ecosystem brand & run usability tests

UCSD A.S. Graphic Studio — *Webmaster*   Jan 2018 - Jun 2018

- Implement a refreshed 2018 Sun God Festival website, which had 30k+ unique visitors
- Plan a social media event to increase engagement with the festival
- Refactor old partner sites to be web & mobile responsive

UCSD — *Instructional Assistant*   Jan 2017 - Jun 2017

- Courses: Data Science in Practice & Intro into Statistical Analysis
- Lead review sessions, office hours, & sections with 20+ students

EDUCATION

University of California San Diego

Sep 2014 - Dec 2018   3.7/4.0

Bachelor of Science, Human Computer Interaction

Minor: Computer Science

Provost Honors x9

FAMU International

Studied cinematography in the Czech Republic

DESIGN

Prototyping
Wireframing
